

Dipan Pramanik

Kolkata, West Bengal, India

☎ +91-98832 80905 ✉ myselfdipan6@gmail.com  Dipan Pramanik  DipanPramanik098  Portfolio

Summary

Full-stack developer (React, Node.js, MongoDB) with hands-on experience building production-grade features including JWT authentication, AI integration (Gemini), and RESTful API design. Strong CS fundamentals and active competitive-programming profile. Eager to contribute to a fast-paced product engineering team.

Education

B.Tech in Computer Science and Engineering — *Netaji Subhash Engineering College* Sep 2022 – Aug 2026

- CGPA: **7.54/10** Kolkata, West Bengal

Higher Secondary (Science) — *Purbachilka Lal Chand High School (H.S)* 2021 – 2022

- Scored **94%** Purba Medinipur, West Bengal

Technical Skills

Languages	Java, JavaScript (ES6+), Python
Frontend	React, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, REST API Design
Databases	MongoDB, SQL, Redis
Tools	Git, GitHub, Postman, VS Code
CS Concepts	OOP, DBMS, Operating Systems, Computer Networks

Projects

AlgoAdda — AI-Powered Coding Platform Jan 2026 – June 2026

Stack: React · Node.js · Express.js · MongoDB · Gemini AI · JWT

 [GitHub](#)

- Built end-to-end full-stack coding platform supporting multi-language code execution, problem management, and automated submission tracking; deployed on **Vercel** (frontend) and **Render** (backend) with production CORS configuration.
- Implemented **JWT-based authentication** with role-based access control (admin/user); integrated **HTTP-only cookie sessions** with `sameSite=None`; Secure for cross-origin safety.
- Integrated **Gemini AI** to provide real-time coding hints inside the editor; designed MongoDB schemas for users, problems, and submissions with a clean RESTful API.

Swiggy Clone — Food Ordering Web App 2025

Stack: React · JavaScript · Tailwind CSS

 [GitHub](#)

- Developed a responsive Swiggy-inspired SPA featuring restaurant browsing, dynamic menu rendering, search, and cart management.
- Leveraged **React state and localStorage** for cart persistence; optimized component re-renders with `useMemo/useCallback` for smooth UX on low-end devices.
